Script to create Insurance and Claims

1. Start application

```
bin/dev
```

2. On a new terminal tab start console

```
rails c
```

3. Run script on console

```ruby
insurance = FactoryBot.create(:insurance, :with_claims, patient_id: 27147)
claims = FactoryBot.create_list(:insurance_claim, 5, :with_items, :with_billing_provider
claims.each do {_1.validation_start!}
```
